

BRAHMIN

At Brahmin, we are all about the details. Since 1982, we have been creating handbags and accessories that combine inspired functionality, quality materials, and of-the-moment designs. Selecting luxe leathers and on-trend styles, our team designs 100% of our products in-house in Massachusetts.

Did you know it takes over two dozen artisans over 100 steps to make each handbag? The result is a modern collection celebrating the textures you love, reimagined season after season.

OUR PROMISE

We select only high quality materials and design handbags built to stand the test of time. We invite you to register your handbag to take advantage of our warranty against workmanship and structural defects for one full year from the date of purchase. A two year warranty is extended if you self-register online.
